

React Day 2 Study Plan

Interview Questions

1. What are React Hooks and why are they used?
2. How does useState work?
3. Why should we use setter functions instead of changing state directly?
4. What happens when multiple state updates happen?
5. How does useEffect work in React?
6. What is the dependency array in useEffect?
7. What happens when useEffect dependency array is empty?
8. What is the difference between useState and useRef?
9. Why do components re-render in React?
10. What is the difference between state and normal variables?

Programs

1. Create a Digital Clock using:
 - useState
 - useEffect
2. Create a Stopwatch Application using:
 - useState
 - useEffect
 - useRef
3. Create a Search Filter Application using:
 - State
 - Array Methods
4. Create a Form Validation Application using:
 - Controlled Inputs

State

5. Create a Character Counter Application using:

Input

State
